Land Lease Agreements

The information, instructions and draft agreement herein were prepared by the Farm Management Section, Saskatchewan Department of Agriculture, with assistance from Regional Farm Management Specialists, legal counsel and the Master of Land Titles.

These instructions are provided to assist the landlord and tenant in preparing a lease agreements. Additional information on land rental arrangements can be obtained from Agricultural Representatives, Farm Management Specialists and lawyers. Saskatchewan Agriculture also publishes the bulletin "Land Rental Arrangements".

This publication is set up in three sections:

i. Section 1, pages 2 to 4 Instructions
ii. Section 2, pages 5 to 10 Lease Agreement
iii. Section 3, pages 11 to 19 Supplementary Forms

Caution:

It is impossible to include in a form provisions to cover every contingency or situation to meet the needs of all persons and thus the information, instructions and draft lease agreements are for use only as a guide. Persons using the same do so by accepting sole and full responsibility.

Warning:

Land owners who rent land to anyone other than a spouse or child may not qualify for the capital gain rollover, under the Income Tax Act. Consult a lawyer, accountant or Farm Management Specialist for specific information.

Instructions

1. Consult with your Agricultural Representative or Farm Management Specialist. Study the sample farm lease agreement form carefully.

2. Determine an equitable rent arrangement using the "Contributions approach". Examples and worksheets are attached (Appendix I) to assist in making the calculations.

3. Discuss the lease with the prospective landlord or tenant. Make changes where desired and complete the written agreement in duplicate. It may be advisable to consult with a lawyer. Some clauses include a choice of terms. Delete the term which does not apply by drawing a line through it and have the witness(es) initial the deletion.

4. The tenant should ensure that the requirements of the "Homesteads Act" are fulfilled. This Act requires that landlord's wife give her written consent (Declaration by Wife) to every lease agreement involving the homestead parcel of land if she is residing in Saskatchewan or has resided in Saskatchewan at any time since the marriage. A "Homestead" is any land(s) upon which the husband has lived since his marriage in which the husband had an equity interest. A man may have several homesteads. The Act also requires that the wife appear before a solicitor, notary public, justice of the peace, registrar of land titles, local registrar of the Court of Queen's Bench, or district court judge to have "The Homesteads Act Certificate" completed. This is to ensure the wife understands her rights in the homestead and that she signs the lease agreement and "Declaration by Wife" of her own free will and consent and without any compulsion on the part of her husband. Complete the "Declaration by the Landlord" if the landlord has no wife, if the land in the agreement has never been part of his homestead, or if the landlord has a wife but she has never resided in Saskatchewan since their marriage.

5. Complete the "Affidavit of Execution". This is confirmation by a third party (witness) that the specified individuals completed the agreement.

6. When assignment of quota acres is by mutual agreement, complete the "Quota Acreage Allocation" form in duplicate prior to the tenant applying for a permit book from the Canadian Wheat Board. Attach one copy of the form to each copy of the lease agreement. It outlines what portion of the total quota acres assigned by the tenant are associated with the rented land. In this way the landlord is assured the desired acres. If the tenant fails to deliver the landlord's grain in accordance with these quota acres a breach of the lease contract has occured.

7. The tenant should have the landlord complete the "Consent to Make Major Improvements" form in duplicate prior to making major improvements on the rented land. It should be clearly outlined what buildings or improvements are to be made, who will pay the cost of materials, and how the tenant will be compensated for his labor or any costs which he may incur. Attach one copy of the form to each copy of the lease agreement.

8. In order to be valid and enforceable against a purchaser, a lease exceeding three years must be either recorded on the certificate of title as a "lease registration" or recorded by means of a "caveat".

The simplest approach is for the tenant to file a "caveat" with the appropriate Registrar of Land Titles. Land Titles Offices are located at Battleford, Humboldt, Moose Jaw, Prince Albert, Regina, Saskatoon, Swift Current and Yorkton. The fee for a caveat registration is $5.00 plus $5.00 for each additional title affected.

If the lease is for a duration of more than three years the tenant could submit a copy of the lease agreement and the landlord's duplicate certificate of title for the land to the appropriate Registrar of Land Titles for register of the lease on the certificate of title. The cost for registering a lease on the certificate of title is $5.00 plus $5.00 for each additional title affected. The Land Titles Office will retain the Landlord's duplicate certificate of title. If the landlord is purchasing the land under an agreement for sale, the lease registration approach will not be accepted. However, the tenant can file a "caveat".

9. To renew the lease agreement complete the Lease Renewal Form, the Homesteads Act Certificate or Declaration by the Landlord, and the Affidavit of Execution. "Lease registration" or a "caveat" is also required for leases exceeding three years.

10. The "Withdrawal and Discharge of Caveat" form is used to remove a caveat from the certificate of title. The fee charged by the Land Titles Office is $5.00 plus $5.00 for each additional title affected.

11. The "Surrender of Lease" form is used to remove a lease registration from the certificate of title. The fee charged by the Land Titles Office is $5.00 plus $5.00 for each additional title affected.

Crop Share Lease

With a crop-share lease the land owner supplies the land, buildings, perhaps some machinery, and perhaps some payment for operating expenses. The renter supplies the labor, and usually the major portion of the machinery and the major payment for operating expenses. Expense items of common benefit to both landlord and tenant (such as fertilizer and chemicals) are often shared in the same proportion as income is shared. Where pasture is included a separate cash lease could be negotiated

for its use or some allowance made for it in the crop-share agreement.

The "fairness" of a crop-share leasing arrangement can be tested by applying the "contributions approach". The following example illustrates this approach. An assumed land valued at $400 per acre is used. An investment cost of 4% is used since the landlord usually receives additional benefit when land values increase.

Example

Landlord's Costs Per Cultivated Acre		Tenant's Costs Per Cultivated Acre	
Investment Cost $400 x 4%	$16.00	Seed	$ 4.00
		Miscellaneous Cost	4.00
Taxes	3.00		
		Machinery	
Grain Storage	2.00	Fuel, repairs, insurance	17.00
		Investment	19.00
Total Landlord's Cost	$21.00	Depreciation	16.00
		Labor	12.00
		Total Tenant's Cost	$72.00

Total Contributions = $21.00 + $72.00 = $93.00

$$\text{Landlord's Share} = \frac{\$21.00}{\$93.00} \times 100 = 23\%$$

$$\text{Tenant's Share} = \frac{\$72.00}{\$93.00} \times 100 = 77\%$$

This example indicates that approximately a one-quarter:three-quarter crop share arrangement would be equitable for the above situation. Fertilizer and chemical expenses in the example are shared in the same ratio as the share of crop.

Crop Share Guide

The following table provides a general guide as to how income should be shared if a land leasing arrangement is to be equitable.

Table 1
Landlord's Percentage Share of Crop

Land Value ($/cult. acre)	Tenant's Cost ($/cultivated acre)**												
	30	35	40	45	50	55	60	65	70	75	80	85	90
$ 200	30	27	25	22	21	19	18	17	16	15	14	13	13
300	36	33	30	27	25	24	22	21	20	18	18	17	16
400	41	38	34	32	30	28	26	24	23	22	21	20	19

700	52	49	45	42	40	38	35	34	32	31	29	28	27
800	55	51	48	45	43	40	38	36	35	33	32	30	29
900	58	54	51	48	45	43	41	39	37	35	34	33	31
1000	60	56	53	50	47	45	43	41	39	38	36	35	33

* The landlord's investment cost in land has been calculated using 4% interest rate plus taxes and building costs estimates at $5.00 per cultivated acre.

** It is important to use realistic estimates of the tenant's costs. In many instances it may be necessary to recalculate the equitable share ratio using the contributions approach outlined in the preceeding example.
